About Us

WHO WE ARE

Healiant Wound Training Solutions is a cutting-edge healthcare education provider that was created in response to an identified need for new and elevated wound training in the industry. Our team is comprised of the very best wound clinicians and senior leaders in the country who collectively bring over 50+ years of industry experience to our programs.

Our non-promotional product domain experts were assembled to create the best program available to increase knowledge and empower clinicians, all while answering a call to fill an industry gap. Furthermore, the feedback from over 3000 wound certified clinicians across the country helped to shape our education programs into the most relevant, current, accessible, and affordable programs available in the industry.

WHAT WE DO

We offer innovative classes that focus on empowering extraordinary clinicians all over the country through a variety of learning options. Whether in a live setting or online, our goal is always for clinicians to take away advanced knowledge that will enhance patient outcomes.

OUR MISSION

Our mission is to empower clinicians through superior training and education.

OUR VISION

Turning wound care providers into Wound Healing Superstars.

CORE VALUES

- Empowering- We empower clinicians to make important decisions that make a difference

- Inclusion- We believe that knowledge should be readily available and accessible to everyone who wants it
- Transformative- We deliver knowledge that positively transforms patient outcomes
- Integrity- Integrity guides and governs all of our actions and business practices
- Disruptive- We will never be satisfied with the status quo nor will we ever stop innovating.

Course Information

WHO THIS COURSE IS FOR

The Advanced Wound Care Concepts: Next Level Principles for the Wound Certified Clinician course is designed for anyone who wants to enhance their wound care skills, improve patient outcomes, and gain a deeper understanding of advanced wound care therapies.

The Advanced Wound Care Concepts course is especially ideal for any clinician who already possesses a wound care certification, but is available to all healthcare professionals. Any individual interested in obtaining the advanced wound care knowledge that can be found in the Advanced Wound Care Concepts course is invited to register for the course.

NONDISCRIMINATORY POLICY

Healiant Wound Training Solutions does not discriminate against any student based on any non-merit factor, including race, national origin, color, religion, gender, disability, marital status, sexual orientation, or age.

COURSE DETAILS

The Advanced Wound Care Concepts course focuses on the five product categories that serve wound healing:

- Negative Pressure Wound Therapy
- Advanced Wound Dressings

- Adjunctive Therapies
- Cellular Tissue Products
- Debridement
- A *BONUS* Module on Reimbursement

The educational course will provide training on the classifications, mechanisms for action, indications, contraindications, advantages, and disadvantages of the products and product categories that are most widely used in the wound healing industry.

LEARNING METHODS

We realize that every person learns differently, and what might work for one person may not be the best for another. We also know that personal schedules, availability for time off of work, and other obligations can impact the ability to obtain quality continuing and advanced education. That is why we offer our Advanced Wound Care Concepts course via three different learning methods:

- 3 Day LIVE Events
- 3 Day VIRTUAL Live Events
- ONLINE that is self-paced and on demand

This affords our learners the option to select what works best for them and their schedules.

Live Events:

Live events are held at various locations throughout the country. These events are typically held in hotel meeting spaces, conference centers, or other similar locations that create a conducive learning environment. Live events take place over the course of 3 days. These courses are taught by dynamic experts in the field with experience catering to adult learners.

Sample Schedule*

Day 1 -

7:30 - 8:00 am - Registration

8:00 - 8:15 am - Welcome

8:15 - 12:30 am - Advanced Wound Dressings

1:30 - 5:45 - Debridement Essentials

Day 2 -

7:45 - 8:15 am - Days 1 Review

8:15 - 12:30 pm - Negative Pressure Wound Therapy

1:30 - 5:45 pm - Skin Substitutes

Day 3

8:00 - 8:30 am - Day 2 Review

8:30 - 12:45 - Adjunctive Modalities

1:30 - 2:30 - Reimbursement

*3:30 - 5:30 pm Certification Examination***

*Schedule is subject to change- listed information is a sample only. Please refer to specific course registration information for exact schedules.

** The AWCC™ certification examination is administered by a testing representative from the National Alliance of Wound Care and Ostomy at the end of the last day of the course. The examination can be taken onsite or the student may choose to take it at a PSI Testing center at a later date.

Virtual Live Events

Virtual live events follow a similar format as the Live courses, from the convenience of any chosen location.

Online

Online courses allow the student access to self-paced modules that can be accessed on demand, when the timing is best for the student.

Access is available for until you successfully pass the certification examination. Within the timeframe, access is unlimited. This allows students to complete the modules when the timing is best, as well as revisit any topics for review as much as needed.

Exam Pass Guarantee

All learning methods come with an Exam Pass Guarantee. Any student who takes the Advanced Wound Care Concepts course and then goes on to

take the Advanced Wound Care Certified (AWCC) exam offered by the National Alliance of Wound Care and Ostomy® (NAWCO) and does not achieve a passing score will receive continued access to resources to assist in further preparing for passing the exam. Resources will be available to students until a passing score is obtained.

COURSE OBJECTIVES

Advanced Wound Dressings

- Select the appropriate topical product depending on the wound description
- Categorize four types of advanced wound dressings
- List indications and contraindications of use for multiple advanced wound dressing

Debridement Essentials

- Recommend appropriate debridement method based on wound assessment
- Determine the negative impacts of necrotic tissue on a wound
- Identify the most commonly used diagnosis codes for wound debridement
- Differentiate between selective and non-selective debridement options

Negative Pressure Wound Therapy

- Explain indications and contraindications for negative pressure wound therapy
- Describe the mechanism of action of negative pressure wound therapy
- Specify the appropriate application of negative pressure wound therapy treatment

Cellular and/or Tissue Based Products / Skin Substitutes

- List four indications and contraindications for skin substitute products
- Distinguish between multiple classes of skin substitute products

- Describe the mechanisms of action of the different classes of skin substitute products
- Organize the steps of applying a skin substitute product

Adjunctive Therapies and Biophysical Agents

- Discuss indications and contraindications for compression therapy
- Compare advantages and disadvantages of different offloading modalities
- Classify various levels and types of support surfaces
