ABOUT US

WHO WE ARE

Healiant Wound Training Solutions is a cutting-edge healthcare education provider that was created in response to an identified need for new and elevated wound training in the industry. Our team is comprised of the very best wound clinicians and senior leaders in the country who collectively bring over 50+ years of industry experience to our programs.

Our non-promotional product domain experts were assembled to create the best program available to increase knowledge and empower clinicians, all while answering a call to fill an industry gap. Furthermore, the feedback from over 3000 wound certified clinicians across the country helped to shape our education programs into the most relevant, current, accessible, and affordable programs available in the industry.

WHAT WE DO

We offer innovative, on-demand training and education that focuses on empowering extraordinary clinicians all over the country. Our goal is for clinicians to take away wound care knowledge that will enhance patient outcomes.

OUR MISSION

Our mission is to empower clinicians through superior training and education.

OUR VISION

Turning wound care providers into Wound Healing Superstars.

CORE VALUES

- EMPOWERING**
 We empower clinicians to make important decisions that make a difference
- INCLUSION**
 We believe that knowledge should be readily available and accessible to everyone who wants it
- TRANSFORMATIVE**
 We deliver knowledge that positively transforms patient outcomes
- INTEGRITY**
 Integrity guides and governs all of our actions and business practices
- DISRUPTIVE**
 We will never be satisfied with the status quo nor will we ever stop innovating.

COURSE INFORMATION

WHO THIS COURSE IS FOR

The Wound Care Concepts course is designed for anyone who wants to enhance their wound care skills, improve patient outcomes, and gain a deeper understanding of wound care therapies.

The Wound Care Concepts course is available to all healthcare professionals. Any individual interested in obtaining the wound care knowledge that can be found in the Wound Care Concepts course is invited to register for the course.

NONDISCRIMINATORY POLICY

Healiant Wound Training Solutions does not discriminate against any student based on any non-merit factor, including race, national origin, color, religion, gender, disability, marital status, sexual orientation, or age.

COURSE DETAILS

The Wound Care Concepts course focuses on the roles and functions of the skin, the risk factors that lead to breakdown, the factors that impede or enhance wound healing, the characteristics of venous, arterial and diabetic ulcers, interventions that can be utilized to prevent pressure injuries, the dressing categories that could be used and the documentation required for the above.

The educational course will provide training on the classifications, mechanisms for action, indications, contraindications, advantages, and disadvantages of the products and product categories that are most widely used in the wound healing industry.

LEARNING METHODS

We know that personal schedules, work commitments, and other obligations can impact the ability to obtain quality continuing and advanced education. That is why we offer our Wound Care Concepts course on demand in an online, self-paced format.

This affords our learners the convenience to select the time and place that works best for them and their schedules.

EXAM PASS GUARANTEE

All learning methods come with an Exam Pass Guarantee. Any student who takes the Wound Care Concepts course and then goes on to take the Wound Care Certified® (WCC®) exam offered by the National Alliance of Wound Care and Ostomy® (NAWCO®) and does not achieve a passing score will receive continued access to resources to assist in further preparing for passing the exam. Resources will be available to students until a passing score is obtained.

COURSE OBJECTIVES

- Discuss the roles and functions of the skin
- Identify 5 risk factors that can lead to skin breakdown
- List 3 factors that can impede or enhance wound healing
- Describe 4 components of a thorough wound assessment
- Explain Wound Bed Preparation and the acronym TIME
- Identify characteristics of venous, arterial and diabetic ulcers based on assessment findings
- Discuss 5 interventions that can be utilized to prevent pressure injury development
- Discuss 4 nutritional interventions that can enhance wound healing
- Classify 5 lesions and their identifying characteristics
- List pressure injury stages as identified by the NPIAP
- Identify 5 dressing categories and when they would be used
- Discuss rationale for dressing choices based on patient assessment
- Discuss 3 adjunctive modalities that can enhance wound healing
- Explain 5 key points necessary for accurate wound documentation

CE/CME/CERTIFICATION INFORMATION

The Wound Care Concepts Course is approved for 24 CE/CME hours.

NURSING:

Healiant Training Solutions LLC approved by the California Board of Registered Nursing, Provider # 17356 for 24 Contact Hours.

PHYSICIAN:

The AAFP has reviewed Wound Care Concepts and deemed it acceptable for up to 24.00 Enduring Materials, Self-Study AAFP Elective credit(s). Term of Approval is from 05/26/2025 to 05/26/2026. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Additionally, this course meets the established criteria set forth by the National Alliance of Wound Care and Ostomy® (NAWCO®) certification committee to take the exam to achieve the Wound Care Certified (AWCC®) credential.
